## CAPABILITY STATEMENT

### Company Overview

Asevotech is a rapidly growing custom software development company with headquarters in Tampa, Florida. We specialize in the development of custom Emergency Management software applications and software services. Specifically, our company carries out custom programming, database design, data processing, document imaging, client-server and internet/intranet software application development.

Since our inception we have managed to build a solid team of professionals that come from various backgrounds and expand the creative potential of the company. The expertise that they possess embraces a wide range of custom programming skills involving the latest and most effective development technologies, such as .NET (ASP.NET, C#, VB.NET), XML and many more.

We provide many ancillary services along with software development, including document imaging services, data entry services, server co-locations, and satellite communication trailers. It is our goal to ensure a strong and valuable relationship with our clients. We will work with you to grow your organization through the use of technology and we guarantee your satisfaction.

### SBA Small Business

Asevotech is an experienced quality source for government contracting officers and purchasing agents to meet statutory obligations requiring Information Technology (IT) service procurements from small business. We actively seek teaming arrangements with prime contractors and other small businesses in IT or related services.

### Services

- Emergency Management Software

### Facilities/Service Area

#### Tampa, FL

2,034 Sq Ft office in downtown Tampa, which serves as the corporate headquarters.

20,000 Sq Ft Level 5 data center in North Tampa serves as our facility for all server and internet hosting.

#### Sarasota, FL

**5,000 Sq Ft satellite office for data entry operations.** This office is able to be staffed with 200 data entry workstations in 24 hours notice, 24/7/365.

#### Cleveland, OH

1,800 Sq Ft office for custom software development projects.

### Past Performance

For over 10 years, Asevotech has been providing custom Disaster Management Software solutions to the emergency management sector, including debris monitoring and debris contracting firms.

During the recovery effort of Hurricane Ike, Asevotech was the prime subcontractor to Beck Disaster Recovery Inc., tasked as the Data Manager overseeing 4 regional field offices and 1,000 employees in Seattle, Pensacola, Sarasota and Orlando.

We have extensive experience with load ticket management software solutions, including unit and hourly work. Our involvement with the FEMA programs and data management is unmatched in the industry.

Most recently, in September 2009, Asevotech was awarded the Florida State Term Contract for Information Technology Consulting.

- Hillsborough County, FL, SBE
- Cuyahoga County, OH, SBE
